
Zelotes T-80 C12 Mouse Driver - real driver

Nope, just one download. Oh, but they have two in the "learn more" option, are they just different operating systems? The driver itself is 4gb. A: Look up the drivers for the mouse. They are not downloadable if you have a CD-KEY. Q: How do I get rid of the duplicated rows appearing when I did SP? I have a couple of tables, let's call them "Friends" and "Posts" (or something like that). When I do SP (select * from Friends) this command created me a duplicated row: key1 key2 alex@mail.com alex@mail.com as it is seen in my table, I prefer to have it like this: key1 key2 alex@mail.com alex@mail.com I would like to get rid of the duplication (if it's possible), how can I do it? I did this query to select all the rows in my table, but I don't know how to get rid of the duplicated ones: select a.id, a.email, a.name, p.id as p_id, p.email as p_email, p.name as p_name from friends as a join posts as p on a.id = p.id I have no idea how to use the "group by" function in this query.. A: I think you can try it like this: SELECT a.id, a.email, a.name, p.id as p_id, p.email as p_email, p.name as p_name FROM Friends a IN
